David C. Wierenga
District Engineer

Dear water user:

The 2022 Delano-Earlimart Irrigation District (District) water season begins on March 1, 2022. While the District will not receive its initial allocation of water until the end of February, precipitation events in December added significantly to the 2022 water supply and the District remains hopeful that further precipitation will occur through the end of winter and beginning of spring.

In order for a District water user to receive water service beginning March 1, 2022, please review the items enclosed with this letter. Enclosed first is the 2022 Water Policy which contains the terms by which water will be made available within the District. Enclosed second is the 2022 Water Application. Please review the 2022 Water Policy and fill out the 2022 Water Application forms. Completed 2022 Water Applications are due back to the District by February 18, 2022 and may be dropped by the District's office or sent to the District's PO Box using the enclosed envelope.

Real-time communication from the District primarily occurs through emails sent to an actively maintained list of water users. The District anticipates the next email to be sent in late February, which will include the 2022 water rate. If you do not already receive the District's emails you are missing out on important updates. Please be sure to include the appropriate email address on your 2022 Water Application.

The District's Board of Directors and staff would like to thank you for the opportunity to serve you and wish you a productive and profitable 2022 growing season.

If you have any questions or need assistance, please feel free to contact the District office.

Sincerely,

A handwritten signature in blue ink, appearing to read "E.R. Quinley", is written over a white background.

Eric R. Quinley
